- Photoshop CS3
- Flash CS3
- SQL 2000, SQL 2005
- Classic ASP, ASP.NET and PHP development
- Cold fusion site update
- IIS 6, Windows 2003 Server, Ado, OLEDB, AJAX, CSS, DHTML, HTML, cookies, WEB 2.0

---

**IT Consultant** Web design and development : TEC (The Engineering Company) - March 2006

- Photoshop CS
- Flash MX
- Access Database
- ASP Vbscript/Javascript
- IIS 6, Windows 2003 Server, Ado, OLEDB, Classic ASP 3.0, CSS, DHTML, HTML, cookies)

---

**IT Consultant** Web design and development : [Group Publishing, Inc.](#)- July 2005 – December 2005

*“The Group wanted to replace an outdated MS Access application with a web application with functionality that will better align its business to its specialists (Trainers) and customers (Churches). The outdated application did not adequately reflect the current needs or business vision. The opportunity was to improve the flow and features of the application providing a clearer, simpler way to coordinate events within the company.”*

**Admin Module:** (On the company’s Intranet) (SQL 2000 Database)

- Database Administration for keeping track of events
- Online access for Specialists to know about event opportunities in their area (Curriculum workshops, VBS Previews and Parties, Workshop Tours)
- Online application process for Specialists to apply for event assignments
- Online expense report submission for specialists
- Zip Code locator to estimate mileage between specialist and event venue with maps (as a Class Object)

**Real Specialist Website:** <http://www.group.com/REALsMsSpecialists2/>

- access to the event database
- forms, scripts and workshop supply lists
- calendar of events they have been assigned
- Expense report submission-electronic if no receipts , pdf file for download if they have receipts to submit
- Can change their profile - make updates to address, phone, etc online
- Order materials online

**Host Event Request site:** <http://www.group.com/REALsMsHosts/>

- Churches can request online, a training workshop in their church, or to be a host for a VBS Party

**Tools used:**

- Photoshop CS (Plug-ins : Xenofex, KPT 3, KPT 5, KPT 6, EyeCandy 4000)
- Flash MX 2004
- SQL Server 2000
- Vbscript/Javascript
- IIS 6, Windows 2003 Server, Ado, OLEDB, Classic ASP 3.0, CSS, DHTML, HTML, cookies, COM, DOM

---

**IT Consultant** Web design and development : The 3 Peas (Jazz-Fusion Trio) Music Band - April 2005  
<http://www.3peasfunk.com>

*«3 Peas marry jazz philosophy with soul-slappin’ funk, exploring reggae, hip-hop, and Afro-Cuban break beats. These influences craft the rhythmic potency and contagious groove that defines their sound. Their requirements for a web site was essentially on the look and feel. This site is graphically intense, a pure moment of joy for a web/graphics Designer ☺»*

- Photoshop CS (Plug-ins : Xenofex, KPT 3, KPT 5, KPT 6, EyeCandy 4000)
- Flash MX
- Access Database
- ASP Vbscript/Javascript (MP3 Audio Streaming, Pictures Gallery)

- IIS 6, Windows 2003 Server, Ado, OLEDB, Classic ASP 3.0, CSS, DHTML, HTML, cookies)

---

**IT Consultant** Guerrilla Painter LLC Corporate web site update September 2004/ Current  
Major upgrade to the E-Commerce Site of the company. <http://www.pochade.com>  
New Web Site <http://www.guerrillapainter.com>

*«Guerrilla Painter LLC is the inventor and manufacturer of the Guerrilla Painter Box. The plein air resource specialist. I originally developed the site for this company 2 years ago, In this major upgrade Guerrilla Painter LLC has included a plein air resource forum, with approval system, as the company wants to become the reference on the internet for plein air resource material. This site has become in 2 years a place to find information about painting outdoors, with a unique well designed product that made GP LLC successfull.»*
